Q. 1 It is possible to create a new version of a document in OmniDocs
- Yes, by using check –in check-out feature.
- Yes, download document, modify it and re-upload the document.
- Yes, download document delete it from OmniDocs, change in downloaded document and upload.
- No, document versioning is not possible.

Q. 1 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

- One has to write integration code.
- Use Webservice
- Use web-api
- Not possible

Q. 1 How to add Custom Tab in OmniDocs?
- Via Admin Console
- Via ComponentIntegration.xml
- Via OSA
- via eworkstyle.ini

Q. 1
In OmniDocs, a_____ is a notification that would be flashed / emailed to all the selected users

- sms
- message
- reminder
- alert

Q. 1 What are Action Items?
- Define an action taken on document.
- Define an action taken on folders
- Action Item facilitates to automate a workflow through OmniDocs Shared Cabinet.
- No such feature available

Q. 1 OmniDocs is a _____ application?

- Browser based
- Desktop based
- Standalone
- Database

Q. 1 The core business logic is implemented in which tier?
- Database Storage tier
- Database Server
- Application Server
- OmniDocs Web Server

Q. 1 Which OCR engine is used to extract data from scanned documents?
- ScanSoft OmniPage
- GOCR
- OCRFeeder
- Scantron

Q. 1 In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?
A. omnidocs.war
B. Custom.war
C. Opall.war
D. eworkstyle.ini
E. ComponentIntegration.xml
- Only B, C, E
- Only A, D
- Only A, B, D, E
- Only B, D

Q. 1 We can have more than one web-server in OmniDocs?
- True
- False

Q. 1 Is OmniDocs Architecture Scalable?
- Yes, scalable horizontally
- No, Not scalable
- Yes, scalable vertically
- It is scalable horizontally and vertically both

Q. 1
  Which type of document(s) is supported by OmniDocs?
- Image Documents
- Non-Image Documents
- Both of the above
- None of the above

Q. 1 OmniDocs provides integration adapter for:
- Microsoft Project
- Notepad
- SAP
- SVN

R. 1 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?
- One has to write integration code.
- Use Webservice
- Use web-api
- Not possible

Q. 1 While viewing documents in OmniDocs IVApplet, client must have accepted:
- Username / Password
- Security
- Certificate
- Slowness

Q. 1 Available Security levels in OmniDocs are:
i. Cabinet Level
ii. Object Level
iii. No Security
- (i) and (ii)   --Wrong
- (i) and (iii) --Wrong but not sure
- (ii) and (iii)
- (i), (ii) and (iii)

Q. 1 OmniDocs is a desktop application
- True
- False

 OmniDocs is supported on:
- English & Arabic
- English & Japanese
- English & Chinese
- All of the above

Q. 3 Only _____ files can be used as an icon for Custom Tabs in OmniDocs?
- png
- jpg
- svg
- tif

Q. 4 Is Easy Search also an integration type while configuring the OmniDocs Web A
- Yes
- No

Q. 1 OmniProcess is used for:
- Distributed scanning and centralised indexing.
- File creation through Maker-Checker approvals
- For creating documents in OmniDocs
- All of the above

Q. 1 How does OmniDocs EJB components connect to database
- Using ODBC bridge
- Using JDBC-ODBC bridge
- Using JDBC API
- Using System DSN

Q. 1
How many Cabinets in OmniDocs can be connected by single user at one time?
- 1
- 2
- 3
- Any number

Q. 1 We can have more than one web-server in OmniDocs?
- True
- False

Q. 1 In OmniDocs "Create Shortcut" feature creates:
- New document of same size
- Create document reference only
- Both of the above
- None of the above

Q. 1 What is FTS?
- Full Text Search
- Full text Sort
- Filter text Search
- None of the above

Q. 2 To enable PCI Compliance, which KMS can be supported by OmniDocs:
- AWS-KMS
- Azure Key-Vault
- All KMS
- Hadoop KMS

Q. 1 In OmniDocs, Custom Actions are defined for which module?
- OmniProcess
- Repository
- Search
- Reports

R. 1 Multiple site can be added in same OmniDocs installation having same IP address

- True
- False

Q. 1 Is FTS available immediately after a document has been uploaded?

- Yes, FTS is available immediately after a document has been uploaded
- No, admin has to explicitly trigger text extraction for that document for FTS to work
- No, uploading user has to explicitly trigger text extraction for that document for FTS to work
- No, text will be extracted and indexed automatically in the next extraction cycle after completing all documents or completing documents as per "Document Count".

Q. 1 Can FTS be combined with index search?

- Search is always combined
- Search is combined if user gives parameters on both
- Search can never be combined
- None of the above

Q. 1 OmniDocs is supported on which Application Server:

- JBOSS EAP
- Websphere
- Weblogic
- All of the Above

Q. 3 OmniDocs uses connection pool.

- True
- False

Q. 4 Options for creating users, group and data classes are present/available under

- System Administration
- Configure Desktop
- Service Management
- License Management

Q. 1 In latest version of OmniDocs, special character used for file convention name is:

- $
- @   --most probably
- %
- # --Wrong

Q. 2 OmniDocs is built using which technology?

- **J2EE**
- DOTNET
- C
- PHP

R. 1 Immediate replication as well as delayed replication terms are related to which OmniDocs component?

- Site
- Image
- Data
- **Volume**

Q. 1 OmniDocs Architecture is based on:

- **Model View Controller**
- Model Viewer Container
- Mode View Controller
- Model Controlled View

Q. 1 Which full text search engine we use for Oracle?

- FAST
- **Oracle Text**
- Lucene
- None of the above

Q. 1
  Main features of OmniDocs are:

- Filing of folders/images
- Indexing, Processing and searching
- Various monitoring reports like usage reports, audit reports, etc
- **All of the above**

Q. 1
What is the security feature related to dual authorization in user/group operations in OmniDocs called?

- User data class
- **Maker-Checker**
- Audit Log
- None of the above

Q. 2 One can logout OmniDocs client session from:

- Master Desktop screen
- Custom Desktop screen

- Both of the above
- None of the above

Q. 4 What is OmniDocs Web API?
- Newgen created web based framework using which one create custom applications
- Newgen created web based framework for running OmniDocs application
- Newgen created web based framework for the integration of any external application with OmniDocs
- Newgen created web based framework for running Newgen created web applications

Q. 1 OmniDocs supports following database cabinet:
- Oracle
- MS SQL
- MySQL
- Only option 1st & 2nd

Q. 2 Which component of OmniDocs is actually used by end user using browser?
- OmniDocs Web component
- OmniDocs EJB component
- Both Web and EJB components
- None of the above

Q. 3 Once dataclass is added in OmniDocs, how to add another field to it?
- By Edit Option
- By Modify Option
- By Renaming
- Not Possible

Q. 1 API stands for:
- Application Programming Interface
- Application Package Import
- Application Package Information
- All of the above

Q. 2 How to apply keyword on folder in OmniDocs?
- Open a folder. On properties tab – Add keyword Option is visible. Click on that. Add keyword and click on save
- Keywords are not supported on folder
- Open a folder. On properties tab – Add keyword Option is visible. Click on that. Add keyword

- None of the above

Q. 1 OmniDocs GUI is written in which language?
- PHP
- JSP
- .Net
- Pearl

Q. 1 Does OmniDocs Architecture support platform independence?
- NO
- Yes
- Depends on how it is deployed
- No, as it is purely desktop based application

Q. 1 SMS in OmniDocs supports caching.
- Trues
- False

Q. 2

OmniDocs supports document searching on:

i. Data class, Global Index, Document Name, Owner and Specific Date
ii. Data Class, Global index, Document Name and Date Range
iii. Data class, Document Name, Global index, Date Range and owner
- (i) and (ii)
- (i) and (iii)
- (ii) and (iii)
- None of the above

Q. 3 It is possible to have more than one web server for OmniDocs deployment.
- True
- False

Q. 1 Efficient use of bandwidth is achieved in OmniDocs Document viewer because
- fetches document byte by byte
- fetches document in synchronised stream
- fetches document in asynchronised stream
- fetches document page by page

Q. 3
Which of the following statements is correct for Volume in OmniDocs
- There is no limit on the physical storage occupied by an image volume
- Every volume has to be given different volume path
- Volume cannot be replicated
- All of the above

Q. 1
Users can search documents in OmniDocs on the basis of _____.

- Keywords
- Folder
- picklist
- indexes

Q. 1
Operations that can be performed in OmniDocs:

- Scanning
- Storage
- Indexing
- All of the above

Q. 1 Multiples volumes can be created on a single site in OmniDocs.

- True
- False

Q. 2 Which streaming server is supported by OmniDocs?

- VLC Player
- Wowza
- Any Streaming Server
- Xuggler

Q. 1 How does OmniDocs achieve platform independence?

- Using web services
- Using .NET API
- Using file sharing approach
- Using XML based API

Q. 3 In OmniDocs, which group is associated with supervisor user by default?

- Supervisor
- Everyone
- Others
- Both 1st & 2nd options

Q. 1
Which of the following statement about label is true?

- Once made, label cannot be changed
- Only Location of the label can be changed
- Only Name of the label can be changed
- Both the Name and Location of the label can be changed

Q. 1

OmniDocs is built using robust server-side _____ technologies

- **Java and J2EE**
- C++
- Java
- Android

Q. 5 In OmniDocs, global index can be associated with:

- **Document**
- Folder
- Both of the above
- None of the above

Q. 1 During Search Configuration / making a Search in OmniDocs Admin, Include Full text Search is applied on:

- Only on Document Search but not on Folder Search
- Only on Folder Search but not on Document Search
- This feature does not exist during making a Search
- On both Document and Folder Search

Q. 2 In latest version of OmniDocs, file convention is mandatory for:

- Document type configuration
- Folder type configuration
- **Both of the above**
- None of the above

Q. 3 In OmniDocs, Landing Page Configuration is applicable only for:

- System Tabs
- Custom Tabs
- Only for Document Search
- **Both the options 1st and 2nd**

R. 2 In OmniDocs, which of the following information is required while creating labels:

- Label Name
- Location of Media
- **Both of the above**
- None of the above

Q. 1 OmniDocs does not support following database:

- Oracle
- **MYSQL**
- Postgre SQL
- MS SQL

Q. 4 In OmniDocs to secure data, following information can be secured:
- Data Class Field Values and Keywords
- Global Index values and Keywords
- Name of Document and Folder
- <mark>Data Class Field Values and Global Index values</mark>

Q. 5 Select which among below is not an option while creating dataclass field in OmniDocs?
- <mark>Useful</mark>
- Mandatory
- Unique
- Size

Q. 3 In OmniDocs, custom operations are defined for _____.
A. Folder
B. Document
C. Filepart
D. Record
- Only A, C
- Only B, C
- Only A, B, C
- <mark>All of the above</mark>

Q. 2
Administrator of OmniDocs can create
- Root Folder
- Sub Folder
- <mark>Both Root Folder and Sub Folder</mark>
- None of the above

Q. 1 Which full text search engine we use for MS-SQL?
- Lucene
- <mark>Microsoft Full-Text Engine for SQL Server (MSFTESQL)</mark>
- FAST
- None of the above

Q. 4 OmniDocs FTS mechanism allows:
- Search document based on Index parameters.
- Search document based on Global Index.
- <mark>Search document based on contents of document.</mark>
- None of the above

Q. 1 Size of VolBlock in OmniDocs:

- Cannot be changed
- <mark>Can only be increased</mark>
- Can be increased and decreased both
- None of the above

Q. 1 Maker Checker Feature can be applied to:
- Data Class
- Site
- Volume
- <mark>None of the above</mark>

Q. 5 OmniDocs is:
- <mark>Multi tiered</mark>
- Single tiered
- Dual tiered
- Three tiered

Q. 1 Can web browser directly interact with EJB components of OmniDocs?
- Yes
- Yes, if EJB components are deployed on web server
- <mark>No, only OmniDocs web components can be accessed directly via web browser.</mark>
- None of the above

Q. 2
You want to perform replication in such a way in OmniDocs so that the data that is getting added at the Source should also get added at the replica site at the same time.
- <mark>Immediate Replication</mark>
- Delayed Replication
- Instantaneous Replication
- Immediate Adding Replication

Q. 2 What is the function of OmniDocs Web API?
- To make the content of other applications available in the OmniDocs Interface
- <mark>To access the OmniDocs repository from the interface of any other application</mark>
- To search for documents within all the connected repositories
- All of the above

Q. 2

OmniDocs Password Policy Manager allows setting _____
- minimum length of password
- <mark>password case sensitive</mark>
- number of days for password expiry
- a minimum no of login attempts

Q. 1 Choose the correct option:
- <mark>User can be created at OmniDocs Admin</mark>
- User can be created at OmniDocs Web/Client
- Both of the above
- None of the above

Q. 1 Choose the correct option wrt OmniDocs
- A single Volume is divided into several Volume blocks.
- <mark>A single Volume is divided into several Labels.</mark>
- A single Volume is divided into several Cabinets.
- None of the above

Q. 4 OmniDocs 8.x is not released on which server?
- Jboss.EAP
- Weblogic
- <mark>Sun JSAS</mark>
- Webshere

Q. 2
Data Class Fields in OmniDocs can be selected as:
- Mandatory Fields
- Unique type Fields
- <mark>Mandatory or Unique type fields</mark>
- None of the above

Q. 3 Which lowest version framework is required to run OmniScan?
- NET framework 1.0
- <mark>NET framework 2.0</mark>
- NET framework 3.0
- .Net framework 3.5

Q. 12 Delete Job after Export. What does it mean?
- Close the job after export
- Close the Database and image after export
- <mark>Delete the Database and Images after Export</mark>
- Close OmniScan after export

Q. 1 Does Full Text Search give a relevancy ranking?

- It gives number of occurrences of the word
- It gives an indication of how relevant the search string is
- It gives no ranking
- Documents are ranked based on their usefulness

Q. 6 By default the folders in OmniDocs have _____ sharing rights.
- Public
- Private
- Inherited
- Shared

Q. 8 Volume is a _____ unit in OmniDocs.
- logical
- physical
- methodical
- basic

Q. 1 Metadata for OmniDocs documents are stored in database.
- True
- False

Q. 2
 OmniDocs is built on:
- J2EE
- VB
- .Net
- None of the above

Q. 2
One of the following is not an example of structured content.
- Records
- Scanned Images
- Database Tables
- Excel Sheets

R. 1 A site in OmniDocs is identified by two attributes viz. namely, _____ & _____ .
- SMS IP & SMS Port
- AP Server IP & AP Server Port
- Site IP & Site Port
- All of the above are synonymous

Q. 1 What does RIS stands for:
- Remote Installation Service
- Research Information System

- <mark>Remote Image Server</mark>
- None of the above

Q. 2 In OmniDocs, one can assign data class to a document from:
- OmniDocs Admin
- <mark>OmniDocs Client</mark>
- Both of the above
- None of the above

Q. 1 What are the available replication types in OmniDocs?
- Delayed
- Immediate
- <mark>Both of the above</mark>
- None of the above

Q. 2 How many volumes can be associated in OmniDocs?
- 10
- Only 1
- <mark>Unlimited</mark>
- None of the above

Q. 1 Bulk Upload to OmniDocs is:
- TIFF based
- TXT based
- XLSX based
- <mark>CSV based</mark>

Q. 1 Which one of the following is correct regarding OmniDocs deployment and functioning?
- <mark>OmniDocs need at-least one backend database for deployment and function</mark>
- OmniDocs can run without any database
- OmniDocs can run with database and without database also
- OmniDocs maintains data in windows file system in SMS

Q. 2 What is volume block in OmniDocs?
- It is the physical storage area of the document.
- <mark>It is the logical storage area of the document.</mark>
- It signifies the path of the document
- None of the above

Q. 2
Which of the following is FALSE wrt to Newgen document archival solutions :

- Post processing documents can be archived to external content server
- Post processing archive documents is done automatically
- Does not support archive to SAP archive link based content repository
- None of the above is False

Q. 2 Which of the following statement is true for Global Index in OmniDoc
- A Data Class can be used as a part of a Global Index
- Generally used as search criteria for searching documents and folders
- Can be searched across all the created Cabinets
- All of the above

12 If the document with the same name already exists in OmniDocs then what is append

· Version--> correct

· Timestamp

· Always overwrites the document

· None of the abov

Q. 4
_____ is a logical storage structure in OmniDocs such as a physical file which can contain multiple documents.
- Folder
- Data Class
- SMS
- Directory

Q. 6 OmniDocs Document viewer is built using which technology?
- HTML-Ajax
- Ajax-Json
- Applet
- None of the above

Q. 1 OmniDocs native view can be used to view:
- Image files
- Multimedia files
- MS Office files
- All of the above

Site in OmniDocs could be created at which location:

- On which Jboss is running
- On which JTS is running
- On which SMS is running
- Anywhere

Q. 1
What of the following operation a normal user having all the privileges in OmniDocs can perform?
- Register/Un-Registering stamps
- Adding Keywords
- Viewing Audit Log.
- Assign Rights

Q. 4 In OmniDocs, dataclass can be attached to:
- Groups
- Users
- Action Items
- None of the above

R. 6 How can we lock a document in OmniDocs, such that while reading or modifying no one else can change?
- Select Document -->Lock option--> set lock
- Select Document-->Select Properties-->Set Lock
- Document cannot be locked
- Check out document-->automatically

Q. 1 Which of the following contains features of only OmniDocs product?
- Content Storage, Content Management, Content Retrieval
- Content Storage, Content Management and Content Classification
- Content Capture, Content Storage and Content Management
- Content Extraction, Content Storage and Content Retrieval

Q. 1 During Configuring Search in OmniDocs Admin, if All Data Classes check-box option is selected then:
- User is not able to select any data class
- User is able to select data class
- It is choice of a user, whether to select data class or not
- None of the above

R. 2 Which of the following statements is TRUE regarding color themes in OmniDocs?
- Admin can change for whole system
- Admin can change for whole system but not for users with their own theme specified. Users have to select between specified themes

- Users can define their own Custom themes
- All of the above

Q. 1 How to change OmniDocs logo, which appears top right corner of every OmniDocs page?
- OmniDocs-Admin --> Configure Desktop-->Desktop Settings --> Change Logo
- OmniDocs-Admin --> Configure Desktop --> Change Logo
- OmniDocs-Admin --> Change Logo
- OmniDocs is proprietary product of Newgen. And logo removal is not possible.

Q. 1 OmniDocs Application server layer is built on which architecture?
- UDDI
- SOA
- SOA-advanced
- JTS

Q. 3 What are the available replication types in OmniDocs?
- Delayed
- Immediate
- Neither
- Both option 1st and 2nd

Q. 1 Which option is true after performing delete operation on documents?
- Document permanently deleted from OmniDocs repository.
- Move to Trash
- Both of the above
- None of the above

Q. 5 In OmniDocs, a Label is created through:
- OmniDocs Admin
- Omnidocs Web Client
- OSA
- All of the above

Q. 7
A Record in OmniDocs is an _____ document which can be stored as per the retention policies
- transparent
- information
- mapped
- un-editable

Q. 3 In OmniDocs, user can be member of:
- One group
- More than one group
- Both of the above
- None of the above

Q. 9
  OmniDocs Image Server is responsible for:
- Changing image compression only
- Storage and retrieval of documents
- Scanning of images only
- All of the above

Q. 1 Select which among the following is not allowed data type in Dataclass field type in OmniDocs:
- Integer
- Date
- Float
- Double

Q. 4 Company which are HIPAA compliant. They have to secure following data:
- Credit Card Information
- Health Information
- Personal Data - Mobile No, Email etc
- Aadhar Card Information

Q. 4 What is a Site?
- Location where application server is running
- Location where OmniDocs is installed
- Location Wrapper is running
- Location where Image Files are stored and can be accessed thereafter

Q. 5 Can we link a document to itself in OmniDocs?
- No
- Yes
- Linking is not a feature of OmniDocs
- None of the above

Q. 1 Image type pdf documents are shown in which viewer?
- Pdf Reader embedded in browser
- OpAll Viewer
- Acrobat Reader
- All the options are correct

Q. 1 In OmniDocs, what is the default admin port for JTS?

- 3333
- 9999
- 900
- 10000

R. 3 In OmniDocs, what would be the security level, to restrict Access Rights validation at folder and document level? Is it

- Cabinet Level
- No Security
- Object Level
- None of the above

Q. 1
Which entity can be set by user in 'Advance' option of user management?

- Date Of Birth
- Fax No
- Phone No
- Department Name

Q. 4
What is OmniDocs?

- A desktop based application for managing and viewing the documents stored
- A web based application for managing and viewing the documents stored
- Both of the above
- None of the above

Q. 3 A site is :

- A combination of IP & Port where SMS runs.
- A physical location where PN files are stored.
- A physical location where Images are stored.
- None of the above

Q. 2 During volume creation in OmniDocs, size of Volume block represents:

- Max size of the volume
- Min size of the volume
- Min Size of a PN file
- Max Size of a PN file

Q. 1 In OmniDocs, the default admin port of SMS is:

- 2811

- 8080
- 900
- 10000

Q. 2 Expand SMS:
- Storage Management Server
- System Management Server
- Storage Monitoring Server
- System Monitoring Server

Q. 3
OmniDocs is _____,_____, platform-independent solution
- DMS, multi-tiered
- Scalable, multi-tiered
- Scalable, single-tiered
- ECM, single-tiered

Q. 7
OmniDocs Admin is also known as:
- Cabinet Management
- Document Management
- Queue Management
- Process Managemen

Q. 8 If in a cabinet all folders are named fold1, fold2, fold3, fold4. How would you search them in folder search tab?
- fo*   --Wrong but not sure
- f?ol*
- fol?
- fold

. 4 During Search Configuration / making a search in OmniDocs Admin, is selecting a Data Class and Global Index mandatory?
- Selecting a Data Class is mandatory but not Global Index
- Selecting a Global Index is mandatory but not Data Class
- Selecting both is mandatory
- All the above given options are INCORRECT

R. 2 Even distribution of jobs and associated communications across the computing and networking resources is termed as _____

- Distributed System
- Fail Over
- <mark>Load Balancing</mark>
- Shared System

Q. 8 OmniDocs Document viewer is built using which technology?

- Ajax-Json --Wrong but not sure
- <mark>HTML5-Ajax and HTML5-Angular</mark>
- All of the above
- None of the above

Q. 1 Image type pdf documents are shown in which viewer?

- Pdf Reader embedded in browser
- <mark>IVApplet</mark>
- Acrobat Reader
- All the options are correct

Q. 2
Integrated Document Management [IDM] does not include:

- Document Management
- Document Imaging
- Workflow
- <mark>Web Publishing</mark>

Q. 3
Document Management Systems[DMS] helps an Organization to better manage _____ of electronic documents.

- Creation, Revision, and Approval
- Creation, Revision, and Consumption
- <mark>Creation, Revision, Approval, and Consumption</mark>
- Creation, Approval, and Retrieval

Q. 4 LDAP stands for:

- <mark>Lightweight Directory Access Protocol</mark>
- Light Document Access Protocol
- Light Drive Access Prototype
- Light Document Access Protocol

Q. 2 OmniDocs support folder search on:
i. Data class, Name, Owner and Specific Date
ii. Data Class, Name and Date Range and Full Text Search
iii. Data class, Name, Date Range and owner

- (i) and (ii)
- Only (ii)

- (ii) and (iii)
- <mark>Only (iii)</mark>

Q. 4 In OmniDocs, Supervisor can add folder at the following:
- Root level
- Sub folder
- <mark>Both of the above</mark>
- None of the above

Q. 3 How can we add Global Index in OmniDocs Admin?
- Add global index in global index tab
- Add a DataClass field keeping Global Index checkbox checked
- <mark>Both of the above</mark>
- None of the above

Q. 3 What is the timeout option in the OmniDocs Web API?
- <mark>This is the time in seconds, when the user is not using the application then after the specified time, session gets expired.</mark>
- This is the time limit in milliseconds within which the request should reach from the client to server.
- This is the time in milliseconds, when the user is not using the application then after the specified time, session gets expired.
- This is the time limit in seconds within which the request should reach from the client to server.

Q. 1 Normal users of OmniDocs can create
- Root Folder
- <mark>Sub Folder</mark>
- Both Root Folder and Sub Folder
- None of the above

Q. 4 Default SMS ports are :
- <mark>900 & 10000</mark>
- 3333 & 9999
- 1099 & 1098
- None of the above

Q. 5 In OmniDocs, a Label is:
- A physical location where PN files are stored.
- <mark style="background-color:cyan">The physical path where the data files corresponding to volblocks will be stored. -- Wrong but not sure</mark>
- Both of the above
- None of the above

Q. 6 OmniDocs Server architecture is based on below platform:

- J2EE
- .Net
- Both J2EE and .NET
- J2ME

Q. 3
What is the Default port for site creation in OmniDocs?

- 9000
- 10000
- 900
- No default port

Q. 5
What are the components of Image Server?

- Image Cabinet and SMS
- JTS and SMS only
- JTS only
- SMS only

Q. 1
_____ is a component of Image Server in OmniDocs which provides the actual storage and retrieval of Image Data.

- Image Management Server
- Database Server
- Image Storage Server
- Storage Management Server

Q. 1 Why we should add dataclass on users?

- For efficient searching
- For user mapping easy
- Not possible
- Just added feature, not used generally

Q. 3 What is the limit of document storage in OmniDocs?

- 10 GB
- 100 GB
- 1 TB
- Unlimited

Q. 5
A user wants to fetch information about the customer-related folders existing in the cal the _____ report and generate the report.

- Corporate skills
- Enterprise Content

- <mark>Folder Data</mark>
- Product knowledge

Q. 3
OmniDocs works on all_____ operating systems, _____
databases, application servers and web servers.
- Intel based, standard
- Window-based, content
- Open source, relational
- <mark>Major, industry-standard</mark>

Q. 5
_____ report is generated to give information about all
the documents created within the specified created date range.
- Document initiation
- Document upload status
- <mark>Document creation</mark>
- Upload Status

Q. 1
Groups in OmniDocs can be _____:s

- Created by Admin
- Created by user having group privileges
- Imported from LDAP based directory
- <mark>All of the above</mark>

Q. 4 In OmniDocs, notification of alarm can be done through:
- A flashing icon in OmniDocs Web Desktop to the specified users
- Emailing to the users on the occurrence of the specified event
- <mark>Both of the above</mark>
- None of the above

Q. 3 Replication between the local and central storage servers requires direct _____
- Network Connectivity
- Full Access of both the server
- <mark>TCP/IP connectivity</mark>
- None of the above

Q. 3 In Data Class of OmniDocs, following field type only can be marked secure:

- Date
- Float
- <mark>Text</mark>
- Integer

Q. 1 A document management system is used for
- Document Archival
- Document Retrieval
- <mark>Both of the above</mark>
- None of the above

Q. 5 Expand OSA:
- OmniDocs System Administration
- <mark>OmniDocs Server Administration</mark>
- OmniDocs System Applications
- OmniDocs Server Applications

Q. 11 Choose the incorrect option from the following wrt OmniDocs
- Use OmniDocs Admin to create groups
- <mark>You can assign privileges to the group at the time of group creation only</mark>
- Administrator can define access privileges for the group
- <mark>It is strongly recommended that access policies in Omnidocs should be created at the group level --Wrong but not sure</mark>

Q. 1 Every volume in OmniDocs has a default volume path, which is a _____
- site
- <mark>label</mark>
- volume
- path

Q. 2
OmniDocs Admin provides:
- <mark>User Management</mark>
- Quick Search Management
- Document Addition, Deletion, Modification
- Process Variable Mapping

Q. 7 OmniDocs supports following browsers:
- <mark>Internet Explorer</mark>
- Netscape

- Safari
- Opera

Q. 2 One can logout OmniDocs client session from:
- WebDesktop screen
- Custom Desktop screen
- Both of the above --Correct but not sure
- None of the above

Q. 3 Image Server is responsible for:
- Storage and retrieval of documents
- For the entire document life cycle management
- Moving documents from online to offline storage
- All of the above

Q. 2 Method of communication between web tier and middle tier:
- socket connection
- xml based
- file read write
- shared buffer

Q. 8 Which option related to document is not present in OmniDocs?
- Link
- Duplicate
- Forward
- Order

Q. 3
Rights in OmniDocs can be assigned to _____.
- User and supervisors only
- User and groups only
- User, groups and role only
- Groups, and role only

Q. 3 A _____ is the site from where the user would wish to retrieve his documents
- Preferred Site
- Home Site
- Default Site
- Logical Site

R. 2 Each Image Volume has a _____. This is where the documents of that image volume get added by default.

- Default Site
- <mark>Home Site</mark>
- Preferred Site
- None of the above

Q. 6
In OmniDocs, _____ search on the basis of the words contained in a document is optionally available.
- Dataclass
- Word Text
- <mark>Full Text</mark>
- Easy

Q. 7 Choose the correct option wrt OmniDocs:
- By default security at cabinet is Object level
- <mark style="background-color: red">By default security at cabinet is Cabinet level</mark>
- By default security at cabinet is No security
- <mark style="background-color: red">By default security at cabinet is Inherited</mark>

Q. 17 Choose the correct option:
- <mark>Supervisor User cannot be deleted</mark>
- Supervisor User can be deleted
- Both of the above.
- None of the above.

Q. 5 What is the default client port for SMS?
- 3333
- 700
- <mark>900</mark>
- 10000

Q. 2 In OmniDocs, the default client port for SMS is:
- <mark>900</mark>
- 10000
- 9003
- 9080

Q. 10 How many themes are there in OmniDocs?
A. Classic
B. Professional
C. Oceanic
D. None of the Above
E. Any color can be chosen
- Only B, C
- Only D
- Only E
- <mark>Only A, B, C</mark>

Q. 6 In OmniDocs, a WebAPI can have following themes?
A. Classic
B. Professional
C. Oceanic
D. None of the Above
E. Any color can be chosen
- Only B, C
- Only D
- Only E
- Only A, B, C

Q. 7 Which of the following options are true in OmniDocs?
- One site and multiple volume can exists in single cabinet
- Multiple site and multiple volume can exists in single cabinet
- One site and one volume can exists in single cabinet
- None of the above

Q. 4 Select the correct URL for registering the cabinet for the OmniDocs Admin.
- <databasename>/admin/main/register/registration.htm
- <machinename>/admin/main/registration/register.htm
- <servername>/admin/main/registration/registration.jsp
- <ip>/admin/register/registration.htm

Q. 2 Which of the following is not an Image Server operation?
- Add Document
- Replication
- User Creation
- Move VolBlock

Q. 2 What is the need of managing content in organizations?
- To abide to policies and rules laid by the Government
- Exert control over large volumes of records and documents
- Incorrect question. Do not need to manage
- Both option 1st & 2nd

Q. 4 Image Server Admin operations are:
- Add Document, View Document, and Download document
- Replication and Compaction
- Replication, Compaction, and Move VolBlock
- Move VolBlock only

Q. 10 Inherit Ownership option available at:
- Cabinet Level and Folder Level
- Folder Level
- Data Class Level

- User & Group Level

Q. 2 In OmniDocs, using Opallviewer, which type of documents can be viewed?
- .png , .xls
- .jpg, .png , .tif, .pdf, .bmp
- .tif, .ppt ,.doc
- .xls

Q. 19
The three basic building blocks of SMS are _____, _____, & _____.
- Site, Volume, Image-index
- JTS, Site, Volume
- JTS, Site, Image-Index
- Site, Volume, VolBlock

Q. 1 Dataclass in OmniDocs is used to facilitate:
- Indexing
- Searching
- Linking
- All of the above

Q. 3 In OmniDocs, Document Addition will only be possible when users have:
- Rights on Folder
- Rights on Group
- Rights on Data Class
- Rights on Folder and Data Class

Q. 13 What type of Views are supported for folders and documents:
- List view
- Grid View
- Both of the above
- None of the above

Q. 13
OmniDocs allows users to manage image as well as electronic documents in a _____
- multiple database
- multiple compressed
- single centralized
- dual compressed

Q. 4
User can view the last login details in OmniDocs. It displays_____
- The last login time, Last Login Failure Time, Failure Attempt Count
- The last login time, Last Login Failure Time
- The last login time, Last Login Failure Time, Last Login Username

- The last login time, Failure Attempt Count, Last Login Username

Q. 1 How many folders at a time can we add to a folder / cabinet?
- 1
- 3
- 4
- Unlimited

Q. 5 Which of the following statement is/are true regarding OmniDocs?
- Enterprise class document archival and retrieval system --Wrong but not sure --> with FaxNo-> 5
- Enterprise-class scalability, disaster recovery, fault-tolerance and availability
- Unicode complaint and Supports complete document lifecycle management
- None of the above

Q. 2 What is the default group created in OmniDocs?
- Public
- Private
- Protected
- Restricted

Q. 3 If we create a version in OmniDocs document, how can we recover old documents?
- Old documents are not recoverable
- Select document --> versions--> select old version and view
- Select document--> see history of documents-->view document
- Select document--> Properties-->see history of documents-->view document

Q. 1 OmniDocs GUI is written in which language?
- PHP/HTML
- JSP/HTML
- .Net/ASP
- Pearl/HTML

Q. 3
Keywords in OmniDocs that are associated with a document to perform search are of?
- 3 types
- 2 types
- 4 types

- Many types

. 1 Using the OmniDocs Web API, a user can have the following advantages:
A. Create an application for configuring any external system for Image Enabling.
B. Configure the display functionality to customize the view to whether a single doc
C. Generate and use the sample integration code to be used in the external applica

- Statement A & B are correct.
- Statement B & C are correct.
- Statement C & A are correct
- All the above statements are correct.

Q. 1 Which one of the following is incorrect with respect to OmniDocs Architecture?
- OmniDocs web component directly interact with Database
- OmniDocs web component never interacts with Database directly
- OmniDocs EJB component directly interact with Database
- OmniDocs web component interacts with Database via EJB componen

Q. 4
Which of the following is true about Supervisor Rights Control in OmniDocs?
- The rights of the supervisor at the supreme level still exist and supervisor can control everything.
- The rights of the supervisor are removed and are restricted as a normal user of supervisor group.
- Once removed the power of the supervisor, cannot be restored again.
- All of the above

Q. 5
How many levels of security exist in OmniDocs?
- 2 levels
- 3 levels
- 4 levels
- 6 levels

Q. 19
User in OmniDocs is:
- Imported from external LDAP based Directory
- OmniDocs Internal User
- OmniDocs External User
- Both the option 1 and 2

Q. 3 Which of the following can be used as storage media with SMS in OmniDocs?
- Tape Drives
- SAN / NAS
- CD
- Network routers

Q. 1 While making any data class field secure in OmniDocs, we can perform followir

- Data Class Field can be marked secure only on creation.
- Data Class Field can be marked un-secure any time.
- Data Class Field can be marked secure any time.
- Only secure global index can be part of Data Class.

Q. 14 In OmniDocs, where is the data related to the images stored?

- PN Files
- Database
- Log
- None of the above

R. 3 What to do if a User wants to make document visible only to the owner or the supervisor?

- Mark as Private
- Inherited
- Shared
- Both 2nd & 3rd

Q. 4 In OmniDocs, what are groups created by default in cabinet?

- Supervisor
- Everyone
- Public
- All of the above

Q. 9 Which OmniDocs service is responsible to create Documents Thumbnail?

- Wrapper
- SMS
- Thumbnail
- OSA

Q. 6
Keywords in OmniDocs act as a quick reference for the _____?

- Documents
- Folders
- Both of the above
- None of the above

Q. 3 A Volume in OmniDocs:

- Cannot be replicated
- Can be replicated across multiple sites
- Can be replicated across only one site
- None of the above

Q. 5
Which of the following is valid volume replication type in OmniDocs?

- Delayed
- Postponed
- Logical
- Physical

Q. 1 Audit Trails are available at:

- Cabinet Level
- Folder Level
- Object Level
- All of the above

Q. 10
To which of the following features would you associate OmniDocs with?

- Complex tool for Document Scanning, Indexing and Storage
- Vague reports for monitoring
- No rights at document level for sharing
- Configurable password policies

Q. 11 Which types of image documents are supported?

- TIFF
- Scanned PDF
- Both of the above
- None of the above

Q. 20 How many types of user are there in OmniDocs?

- 2
- 3
- 4
- 5

Q. 12
  Main features of OmniDocs are:

- Filing of folders/images
- Indexing, Processing and searching
- Various monitoring reports like usage reports, audit reports, etc
- All of the above

Q. 4 In OmniDocs, which group is associated with normal user by default?

- Everyone
- Supervisor
- Both of the above
- None of the above

Q. 7 Choose the correct one:
- It is possible to associate Dataclass to Folder only
- It is possible to associate Dataclass to Folder & Document
- It is possible to associate Dataclass to Document only
- All the above are correct

Q. 2 The authentication of the user's login attempts to Newgen application will be validated against domain authentication. This is the Newgen enhanced security feature:
- Active Directory
- Single Sign On
- OmniDocs Authentication Manager (LDAP)
- None of the above

Q. 8
A Record in OmniDocs is an _____ document which can be stored as per the retention policies
- transparent
- information
- mapped
- un-editable

Q. 2 OmniDocs provides integration adapter for:
- Microsoft Project
- Notepad
- SAP
- SVN

Q. 17
Default batch size for document listing in OmniDocs is:
- 15
- 20
- 10
- All documents will be shown

Q. 7
In which of the following cases volume cannot be deleted:
- If the selected volume is the default volume of the cabinet
- If the selected volume consists of some documents
- Both of the above
- None of the above

Q. 1 Home Site is:
- Where the documents of that image volume get added by default
- The site from where the user would wish to retrieve his documents
- Both of the above
- None of the above

Q. 6
When can a user create document versioning in OmniDocs?

- During the check-in operation.
- During the check-Out operation.
- Both during check-in and check-out operations
- None of the choices are true

Q. 9 Each Image Archive is logically divided into one or more _____

- Image Volumes
- Logical Site
- Home Site
- Site

Q. 11 In OmniDocs, what does the PN file consist of?

- Images
- Metadata
- Both of the above
- None of the above

Q. 11 What security options are available at Cabinet Level in OmniDocs?

- No Security
- Cabinet Level
- Object Level
- All of the above

Q. 20
Set of indexes that can be associated with the document or folder by providing the unique entity to them is:

- Global Index
- Data Class
- Keywords
- None of the above

Q. 17
In which of the following cases a user in OmniDocs can perform sharing of folder?

- If user is an owner of the folder
- If user is a member of supervisor group
- If user is member of the group having assign right privilege.
- In all of the above cases.

**********NCIP2**************************************

1 How does text indexing affect database performance?

- ○ In no way
- ○ Database queries get slower
- ○ Database size increases--
- ○ None of the above

2 Which module is NOT configured as Landing Page in OmniDocs?

- ○ Repository
- ○ Trash---
- ○ OmniProcess
- ○ Custom Tab

3 Which of the following integration type is not available in OmniDocs Web API?

- ○ Document View
- ○ Folder View
- ○ Document List
- ○ Folder List---

4 In OmniDocs, what will be the impact of stopping the SMS service?

- ○ Image retrieval will be stopped
- ○ Image addition will be stopped
- ○ Both of the above---
- ○ None of the above

5 From which API call one can get Session ID?

- ○ NGOGetSessionID
- ○ NGOGetUserDBId
- ○ NGOConnectCabinet---
- ○ None of the above

6 For a single Image Server in OmniDocs:

- ○ Only one SMS can be deployed
- ○ Multiple SMS can be deployed--

- ○ Two SMS can be deployed
- ○ None of the above

7 Which flag need to be enabled to enable performance optimization feature in Omr

- ○ OptimizePerformance--
- ○ Performance
- ○ EnablePerformance
- ○ None of the above

8 Which flag is used to Enable Google Drive check-in/check-out option in OmniDocs

- ○ GoogleDriveIntegration---
- ○ GoogleDocsIntegration
- ○ GoogleIntegration
- ○ None of the above

9 In latest version of OmniDocs, if instrument(document or folder) is saved but not

- ○ Submit folder
- ○ Root folder
- ○ Draft folder--
- ○ None of the above

10 What configuration tags are required to enable Forward Feature in OmniDocs?

- ○ MailServerIpAddress, AdminMailId, SSLenabled, UserName, Password, MailServerPort--
- ○ MailServerIpAddress, AdminMailId, SSLenabled
- ○ AdminMailId,SSLenabled, UserName, Password, MailServerPort
- ○ SSLenabled,UserName, Password, MailServerPort

11 In latest version of OmniDocs, while configuring OmniProcess action destination

- ○ Browse from OmniDocs
- ○ Newly created inside Root folder---
--
- ○ Both of the above
- ○ None of the above

12 To upgrade OmniProcess from previous version to latest version of OmniDocs, w

- ○ While upgrading from OSA, OmniProcesses are also upgraded
- ○ OmniDocs Admin UI is used to upgrade OmniProcess-----------------------------
----

- ○ OmniProcesses from previous version cannot be upgraded. Need or create new
- ○ Need to copy ApplicationConfiguration.xml and Criteria.xml from previous version to latest version of OmniDocs

13 FTS isn't working and you get an error indexing service is not running. What will

- ○ Check database text indexing service--

- ○ Check whether TEM is running
- ○ Check whether AppServer is running
- ○ Check whether SMS is running

14 NGOIsAdmin validates:

- ○ Whether the logged in user is a member of the public Group
- ○ Whether the logged in user is a member of the Everyone Group
- ○ Whether the logged in user is a member of the Supervisor Group----------------
----
- ○ None of the above

15 In case of web-api integration, which file gets populated with newly made applic

- ○ Criteria.xml--
- ○ ApplicationIntegration.xml
- ○ ComponentIntegration.xml
- ○ None of the above

16 The feature to perform the task of data highlighting is called _____

- ○ Document definition
- ○ Template definition
- ○ Document image
- ○ Zone definition---

17 Where to define omnidocs_logs folder location?

- ○ server.xml
- ○ configuration..properties
- ○ odlogconfig.properties
- ○ log4j.properties---

18 What are various field constraint supported on data class?

- ○ Unique
- ○ Mandatory
- ○ All of the above--
- ○ None of the above

19 Write a search string in FTS to search for documents which have one word but n

- ○ Word1 - Word2
- ○ Word1 NOT Word2--
- ○ Word1 WITHOUT Word2
- ○ None of the above

20 Which component is used for the synchronization of a domain configured on any

- ○ OmniDocs Authentication Manager--

- ○ Thumbnail Manager
- ○ Alarm Mailer
- ○ Remote Image Server

1 To upgrade Search Configurations from previous version to latest version of Omni

- ○ While upgrading from OSA, Search Configurations are also upgraded. ----------
----
- ○ OmniDocs Admin UI is used to upgrade Search Configurations
- ○ Search Configurations from previous version cannot be upgraded. Need or
create new
- ○ Need to copy SearchConfiguration.xml from previous version to latest version
of OmniDocs

2 For a single Image Server in OmniDocs:

- ○ Only one SMS can be deployed
- ○ Multiple SMS can be deployed--
- ○ Two SMS can be deployed
- ○ None of the above

3 Write a search string in FTS to search for documents which have one word but no

- ○ Word1 - Word2
- ○ Word1 NOT Word2--
- ○ Word1 WITHOUT Word2
- ○ None of the above

4 What API would you use to check whether a user is Admin or not?

- ○ NGOIsAdmin--
- ○ NGOCheckAdmin
- ○ NGOIsUserAdmin

- ○ NGOWhoIsUser

5 In OmniDocs Web API:
i. One create application and OmniDocs provides its name
ii. It is mandatory to provide the application name
iii. Application name is user defined
iv. Application name is mandatory and can be only system defined

- ○ (i) and (ii)
- ○ (ii) and (iii) ---
- ○ (i), (iii) and (iv)
- ○ (i), (ii) and (iv)

6 Where to define omnidocs_logs folder location?

- ○ server.xml
- ○ configuration..properties
- ○ odlogconfig.properties
- ○ log4j.properties--

7 In OmniDocs, a Volume can have

- ○ Only One Volblock
- ○ Only Two Volblock
- ○ Many Volblocks---
- ○ None of the above

8 Write the search string you will use if you want to search only documents which have two particular words.

- ○ Word1 & Word2
- ○ Word1 OR Word2
- ○ Word1 AND Word2---
- ○ None of the above

9 To view secured data in OmniDocs, which right is required?

- ○ Read and Modify
- ○ Modify Only
- ○ Read Only
- ○ Read and View Secured Data---

10 In OmniDocs, a Volume can have:

- ○ Two home site
- ○ One home site---
- ○ Multiple home sites

- ○   None of the above

11 Where do we configure WOWZA streaming server details in OmniDocs?

- ○   eworkstyle.ini---
- ○   IS.ini
- ○   mediaConfiguration.ini
- ○   ApplicationConfiguration.xml

12 In latest version of OmniDocs, OmniProcess Root folder is a parent folder for:

- ○   Draft Folder
- ○   Submit folder
- ○   Both of the above--
- ○   None of the above

13 How can you make connection with the cabinet using the OmniDocs Web API?

- ○   User name
- ○   User Session Index
- ○   External Login
- ○   All the above statements are correct--
-----

14 Suppose User wants to make any Search as a Landing Page, What are the Prere

- ○   Search has rights for everyone
- ○   No rights concept applied before making any Search as Landing Page
- ○   Even if Search has not rights for everyone, it can be set during making Search
as Landing Page
- ○   Both the options 1st and 3rd are correct--
----

15 In OmniDocs, a user can search the documents on what parameters when docum
A. Document Name
B. Document Index
C. Data Class

- ○   Both A & B
- ○   Both B & C
- ○   Both A & C---
- ○   A, B and C

16 What are the recommended scan settings to ensure good OCR results?

- ○   OCR is not dependent on settings

- ○ Document must be scanned at 100 DPI
- ○ Document must be scanned at 300 DPI---

- ○ Document must be scanned at 600 DPI

17 Which of the following languages are supported by OmniDocs 10.x?

- ○ English (US)
- ○ Arabic
- ○ Both of the above--
- ○ None of the above

17 Which of the following languages are supported by OmniDocs 10.x?

- ○ English (US)
- ○ Arabic
- ○ Both of the above--
- ○ None of the above

18 In OmniDocs, where does the entry for cabinet registration go?

- ○ admin.ini and odcablist.ini---
- ○ eworkstyle.ini
- ○ Both of the above
- ○ None of the above

19 In latest version of OmniDocs, while configuring OmniProcess action destination

- ○ Browse from OmniDocs
- ○ Newly created inside Root folder---
--
- ○ Both of the above
- ○ None of the above

20 In case of web-api integration, which file gets populated with newly made application?

- ○ Criteria.xml--
- ○ ApplicationIntegration.xml
- ○ ComponentIntegration.xml
- ○ None of the above

1 What are the different views available for displaying the search results in OmniDo
A. Combo box view
B. List View
C. Advance List view

- ○ B & C only

- ○ A & B only
- ○ A & C only
- ○ A, B and C--

2 In latest version of OmniDocs, while configuring OmniProcess action destination

- ○ Browse from OmniDocs
- ○ Newly created inside Root folder---
--
- ○ Both of the above
- ○ None of the above

3 How can you make connection with the cabinet using the OmniDocs Web API?

- ○ User name
- ○ User Session Index
- ○ External Login
- ○ All the above statements are correct

4 Where do we configure WOWZA streaming server details in OmniDocs?

- ○ eworkstyle.ini
- ○ IS.ini
- ○ mediaConfiguration.ini
- ○ ApplicationConfiguration.xml

5 How can FTS work if it cannot use database inbuilt search engine?

- ○ There is no way FTS can work without database support
- ○ Write code to index text
- ○ Use a third party text engine like Lucene
- ○ None of the above

6 Where to define omnidocs_logs folder location?

- ○ server.xml
- ○ configuration..properties
- ○ odlogconfig.properties
- ○ log4j.properties

7 In OmniDocs, a Volume can have

- ○ Only One Volblock
- ○ Only Two Volblock
- ○ Many Volblocks
- ○ None of the above

8 To upgrade WEB-API from previous version to latest version of OmniDocs, which

- ○ While upgrading from OSA, WEB-APIs are also upgraded
- ○ OmniDocs Admin UI is used to upgrade WEB-API
- ○ WEB-API from previous version cannot be upgraded. Need or create new
- ○ Need to copy ApplicationConfiguration.xml and Criteria.xml from previous
version to latest version of OmniDocs

9 How does text indexing affect database performance?

- ○ In no way
- ○ Database queries get slower
- ○ Database size increases
- ○ None of the above

10 In latest version of OmniDocs, if instrument(document or folder) is saved but r

- ○ Submit folder
- ○ Root folder
- ○ Draft folder
- ○ None of the above

11 How to apply Global Index on folder in OmniDocs?

- ○ Open a folder. On properties tab - Add Global Index Option is visible. Click on
that. Add Global Index and click on save.
- ○ Global Index are not supported on folder
- ○ Open a folder. On properties tab Add Global Index Option is visible. Click on
that. Add Global Index.
- ○ None of the above

12 In OmniDocs, what should be the name of added application in Wowza?

- ○ Same as Cabinet Name
- ○ Same as Volume Name
- ○ Combination of Cabinet Name – Label Name
- ○ Any random name

13 Which of the following languages are supported by OmniDocs 10.x?

- ○ English (US)
- ○ Arabic
- ○ Both of the above
- ○ None of the above

4 Suppose User wants to make any Search as a Landing Page, What are the Prereq

- ○ Search has rights for everyone

- ○ Even if Search has not rights for everyone, it can be set during making Search as Landing Page
- ○ No rights concept applied before making any Search as Landing Page
- ○ Both the options 1st & 2nd

Q. 15 FTS isn't working and you get an error indexing service is not running. What

- ○ Check database text indexing service
- ○ Check whether TEM is running
- ○ Check whether AppServer is running
- ○ Check whether SMS is running

16 Where does JNDI Port entry go?

- ○ NGOClientData.xml
- ○ IS.ini
- ○ Both the options 1 & 2 ----- c
- ○ None of the above

17 In case of web-api integration, which file gets populated with newly made applic

- ○ Criteria.xml
- ○ ApplicationIntegration.xml
- ○ ComponentIntegration.xml
- ○ None of the above

18 To view secured data in OmniDocs, which right is required?

- ○ Read and Modify
- ○ Modify Only
- ○ Read Only
- ○ Read and View Secured Data

19 NGOGetFolderIdForName API is used:

- ○ To fetch Folder name
- ○ To fetch Folder Index
- ○ To fetch Folder properties
- ○ None of the above

20 Which call to be used to associate the Keywords with a document?

- ○ NGOAddKeywordsToDoc
- ○ NGOAddKeywordsToDocument
- ○ NGOAttachKeywordsToDoc
- ○ NGOAddKeywordToDocument

1 Can OmniScan export document to Amazon S3 cloud server ?

- **Yes, but in HTTP mode only**
- Yes, but in TCP mode only
- Yes, for both HTTP & TCP mode
- No

2 Which of these is the license key file of OmniScan?

- OmniCapture.lic
- **OmniScan.lic**
- BulkScan.lic
- None of the above

3 Add in section is defined in which of these INI?

- NGAppSettings.ini
- NGBulkScan.ini
- **Job.ini**
- None of the above

4 In OmniScan, which of these is not an option available to export records to SAP?

- Export in OmniDocs and Link with SAP
- **Export in OmniFlow and Link with SAP**
- Export in SAP content repository
- Export in SAP DMS

5 What symbology is used by OmniScan to extract 2D barcodes?

- PDF417 and USS39
- I20F5 and PDF417
- **PDF417 and QRCode**
- QRCode and I2OF5

6 In OmniScan, user can customize indexes section using:

- Windows Forms
- Form Builder
- Control Form
- Applets

7 Entries of registered cabinet from OmniScan are by default stored at which location

- ○ HKEY_CLASSES_ROOT
- ○ HKEY_CURRENT_USER
- ○ **HKEY_LOCAL_MACHINE**
- ○ HKEY_USERS

8 In OmniScan, "Use HDD File Name". What is the relevance?

- ○ Image Name of record will be same as imported file name.
- ○ Save file in hard disk
- ○ Image will be save in hard disk
- ○ None of the above

9 In OmniScan, underlying database files has following extension:

- ○ xls
- ○ accdb
- ○ mda
- ○ **mdb**

10 Is document versioning functionality available in OmniScan?

- ○ No
- ○ Yes, but only for single call export.
- ○ Yes, but only for mutli call export.
- ○ Yes, for both single and multi call export.

11 In OmniScan, can datafields and document types be made mandatory for the us

- ○ No, cannot be made mandatory.
- ○ Yes, can be made mandatory using customization.
- ◉ Yes, can be made using inbuilt product feature.
- ○ **Both the options 2nd & 3rd**

12 Which entry is required in OmniScan to enable export in SharePoint?

- ○ ExportToSharePoint=Y in NGBulkScan.ini
- ○ ExportToSharePoint=Y in NGAppSetting.ini
- ○ **ExportToSP=Y in NGBulkScan.ini**
- ○ ExportToSP=Y in NGAppSetting.ini

13 Which of these is the unique ID for documents in SAP?

- ○ SAP field ID
- ○ SAP class ID
- ○ **SAP doc ID**
- ○ SAP DMS ID

14 In OmniScan, "Auto Blank Page Removal" works when:

- ○ Doc Type identifier is blank page
- ○ **Folder identifier is blank page**
- ○ In case of Duplex scanning
- ○ In case of Simplex scanning

15 In OmniScan, which of the following is not present in Saved Image Type?

- ○ Black and White
- ○ Color 24 Bit
- ○ Half Tone
- ○ **Millions of Colors**

In OmniScan, which of these files is not present in common Dll folder?

- ○ ImgSrv.dll
- ○ Thumbnail.dll
- ○ PanComp.dll
- ○ **GUIInterface.dll**

 2 In OmniScan, what configuration is needed to export document in Amazon S3 cl

- ○ ExportToCloud=Y in "Application" section of NGBulkScan.ini
- ○ UsingCloudAPI=Y in "Application" section of NGBulkScan.ini.
- ○ ExportToCloud=Y in "ExportAdaptors" section of NGBulkScan.ini
- ○ UsingCloudAPI=Y in "ExportAdaptors" section of NGBulkScan.ini

3 In OmniScan, which compression is supported for color 24 bit PDF image?

- ○ LZW
- ○ Flat Decode
- ○ JBIG2
- ○ **JPEG**

4 Which of these is the license key file of OmniScan?

- ○ OmniCapture.lic
- ○ **OmniScan.lic**
- ○ BulkScan.lic
- ○ None of the above

5 In OmniScan, what is the recommended DPI level needed to extract a barcode fro

- ○ 100 DPI
- ○ 200 DPI
- ○ 250 DPI
- ○ **300 DPI**

6 Which file format is not supported for export reports in OmniScan?

- ○ Text
- ○ Excel
- ○ **Access**
- ○ None of the above

7 SAP functions are not defined in INI for which of these cases?

- ○ Export in OmniDocs and Link with SAP
- ○ **Export in OmniFlow and Link with SAP**
- ○ Export in SAP content repository
- ○ None of the above

8 Is document versioning functionality available in OmniScan?

- ○ No
- ○ Yes, but only for single call export.
- ○ Yes, but only for mutli call export.
- ○ Yes, for both single and multi call export.

9 Which of these is the unique ID for documents in SAP?

- ○ SAP field ID
- ○ SAP class ID
- ○ **SAP doc ID**
- ○ SAP DMS ID

10 User can decide whether to choose scanner image settings or INI image settings

- ○ UseScannerSettings
- ○ HideScanner
- ○ ShowScanner
- ○ UseIniSettings

11 In OmniScan, which of these image types cannot be imported?

- ○ TIF
- ○ JPEG
- ○ **DOC**
- ○ GIF

12 Which entry is required in OmniScan to enable export in SharePoint?

- ○ ExportToSharePoint=Y in NGBulkScan.ini
- ○ ExportToSharePoint=Y in NGAppSetting.ini
- ○ **ExportToSP=Y in NGBulkScan.ini**
- ○ ExportToSP=Y in NGAppSetting.ini

13 In OmniScan, what does DQA functionality stands for ?

- ○ Document Quantity Analyzer
- ○ **Document Quality Analyzer**
- ○ Data Quality Analyzer
- ○ None of the above

14 In OmniScan, an User Profile (for saving image and database files of a job) is se

- ○ NGAppSettings.ini
- ○ **NGBulkScan.ini**
- ○ NGUserSettings.ini
- ○ None of these

15 What symbology is used by OmniScan to extract 2D barcodes?

- ○ PDF417 and USS39
- ○ I20F5 and PDF417
- ○ **PDF417 and QRCode**
- ○ QRCode and I2OF5

1 In OmniDocs, what should be the name of added application in Wowza?

- ○ Same as Cabinet Name
- ○ Same as Volume Name
- ○ Combination of Cabinet Name – Label Name
- ○ Any random name

2 Write the search string you will use if you want to search only documents which h

- ○ Word1 & Word2
- ○ Word1 OR Word2
- ○ Word1 AND Word2
- ○ None of the above

3 In latest version of OmniDocs, while configuring OmniProcess action destination

- ○ Browse from OmniDocs
- ○ Newly created inside Root folder
- ○ Both of the above
- ○ None of the above

4 Which protocol is used to play Audio/Video formats in OmniDocs Web?

- ○ RSMP
- ○ SMTP
- ○ RTMP
- ○ AVTP

5 Which module is NOT configured as Landing Page in OmniDocs?

- ○ Repository
- ○ Trash
- ○ OmniProcess
- ○ Custom Tab

6 NGOIsAdmin validates:

- ○ Whether the logged in user is a member of the public Group
- ○ Whether the logged in user is a member of the Everyone Group
- ○ Whether the logged in user is a member of the Supervisor Group
- ○ None of the above

7 Which SMS port is used when adding site in OmniDocs Admin?

- ○ Client port
- ○ Admin port
- ○ Any port can be given
- ○ None of the above

8 TEM is not able to retrieve documents from SMS. What will you check first?

- ○ Check database text indexing service
- ○ Check whether TEM is running
- ○ Check whether AppServer is running
- ○ Check whether SMS is running —

9 How to fetch property of an OmniDocs Group?

- ○ NGOFetchGroupProperty
- ○ NGOGetGroupProperty
- ○ NGOFetchGroupPropertyExt
- ○ NGOGetGroupPropertyExt

10 Which of the following OmniDocs component is used for adding or viewing the d

- ○ OSA
- ○ SMS
- ○ Wrapper
- ○ Alarm Mailer

11 Where to define omnidocs_logs folder location?

- ○ server.xml
- ○ configuration..properties
- ○ odlogconfig.properties
- ○ log4j.properties ‿

12 FTS isn't working and you get an error indexing service is not running. What wil

- ○ Check database text indexing service
- ○ Check whether TEM is running
- ○ Check whether AppServer is running
- ○ Check whether SMS is running

13 Which API is used to create folder in OmniDocs?

- ○ NGOCreateFolder
- ○ NGOInsertFolder
- ○ NGOAddFolder
- ○ None of the above

14 In OmniDocs, which component listens on a TCP/IP Socket and communicates w

- ○ OSA
- ○ Wrapper
- ○ SMS

- ○ FTS

15 Suppose User wants to make any Search as a Landing Page, What are the Prere

- ○ Search has rights for everyone
- ○ No rights concept applied before making any Search as Landing Page
- ○ Even if Search has not rights for everyone, it can be set during making Search as Landing Page
- ○ Both the options 1st and 3rd are correct

16 In case of web-api integration, which file gets populated with newly made applic

- ○ Criteria.xml
- ○ ApplicationIntegration.xml
- ○ ComponentIntegration.xml
- ○ None of the above

17 In OmniDocs, which search option is not available in Integration type Document

- ○ Document Name
- ○ Data Class
- ○ Folder
- ○ None of the above

18 OmniDocs 10.x is released on which of the following Operating System?

- ○ RHEL 6.0/7.0
- ○ Windows 2012
- ○ Both of the above
- ○ None of the above

19 To upgrade OmniProcess from previous version to latest version of OmniDocs, v

- ○ While upgrading from OSA, OmniProcesses are also upgraded
- ○ OmniDocs Admin UI is used to upgrade OmniProcess
- ○ OmniProcesses from previous version cannot be upgraded. Need or create new
- ○ Need to copy ApplicationConfiguration.xml and Criteria.xml from previous version to latest version of OmniDocs

20 In latest version of OmniDocs, OmniProcess Draft folder is a look in folder for:

- ○ Maker (Upload)
- ○ Step1 (Checker1)
- ○ Step2 (Checker2)
- ○ Step3 (Checker3)

1 Which application type is used to configure audio/video in OmniDocs?

- ○ VOD

- ○ VOD-Edge
- ○ VOD HTTP Origin
- ○ audio/video Edge

. 2 Which user(s) is/are created in OmniDocs during installation?

- ○ supervisor & supervisor2
- ○ supervisor1 & supervisor2
- ○ guest & owner
- ○ supervisor only

3 In latest version of OmniDocs, OmniProcess Submit folder is a look in folder for:

- ○ Maker (Upload)
- ○ Step1 (Checker1) ---c
- ○ Step2 (Checker2)
- ○ Step3 (Checker3)

4 In latest version of OmniDocs, OmniProcess Draft folder is a look in folder for:

- ○ Maker (Upload)
- ○ Step1 (Checker1)
- ○ Step2 (Checker2)
- ○ Step3 (Checker3)

5 Where do we configure WOWZA streaming server details in OmniDocs?

- ○ eworkstyle.ini
- ○ IS.ini
- ○ mediaConfiguration.ini
- ○ ApplicationConfiguration.xml

6 To upgrade OmniProcess from previous version to latest version of OmniDocs, wh

- ○ While upgrading from OSA, OmniProcesses are also upgraded
- ○ OmniDocs Admin UI is used to upgrade OmniProcess
- ○ OmniProcesses from previous version cannot be upgraded. Need or create new
- ○ Need to copy ApplicationConfiguration.xml and Criteria.xml from previous

version to latest version of OmniDocs

7 In OmniDocs, a Volume can have

- ○ Only One Volblock
- ○ Only Two Volblock
- ○ Many Volblocks
- ○ None of the above

8 In OmniDocs, where does the entry for cabinet registration go?

- ○ admin.ini and odcablist.ini
- ○ eworkstyle.ini
- ○ Both of the above
- ○ None of the above

9 One can create Web API that connects with OmniDocs:

- ○ With an username and password
- ○ With OmniDocs user session id
- ○ Both options 1st & 2nd
- ○ Web API does not have provision to connect with OmniDocs. An explicit connection needs to be established.

10 TEM is not able to retrieve documents from SMS. What will you check first?

- ○ Check database text indexing service
- ○ Check whether TEM is running
- ○ Check whether AppServer is running
- ○ Check whether SMS is running

11 In case of web-api integration, which file gets populated with newly made applic

- ○ Criteria.xml
- ○ ApplicationIntegration.xml
- ○ ComponentIntegration.xml
- ○ None of the above

12 In OmniDocs, what will be the impact of stopping the SMS service?

- ○ Image retrieval will be stopped
- ○ Image addition will be stopped
- ○ Both of the above
- ○ None of the above

13 What kind of access rights is required on folder accessed by owner or superviso

- ○ Private ___
- ○ Shared
- ○ Inherited
- ○ None of the above

14 Which tags are mandatory for all Newgen products API?

- ○ Option, CabinetName
- ○ CabinetName,TableName

- ○ IndexID, DataClassTag
- ○ All tags are mandatory

15 FTS isn't working and you get an error indexing service is not running. What will

- ○ Check database text indexing service
- ○ Check whether TEM is running
- ○ Check whether AppServer is running
- ○ Check whether SMS is running

16 How to get list of Data Definition in the System?

- ○ NGOGetDataDefListExt
- ○ NGOGetDataDefinitionListExt
- ○ NGOGetDataDefinitionList
- ○ NGOGetDataDefList

17 What API would you use to dissociate globalindex from document

- ○ NGORemoveGlobalIndexFromDoc
- ○ NGODisAssociateGlobalIndexFromDocument
- ○ NGORemoveGlobalIndexFromDocument
- ○ NGODeleteGlobalIndexFromDocument

18 How to apply Global Index on folder in OmniDocs?

- ○ Open a folder. On properties tab - Add Global Index Option is visible. Click on that. Add Global Index and click on save.
- ○ Global Index are not supported on folder
- ○ Open a folder. On properties tab Add Global Index Option is visible. Click on that. Add Global Index.
- ○ None of the above

19 Which SMS port is used when adding site in OmniDocs Admin?

- ○ Client port
- ○ Admin port
- ○ Any port can be given
- ○ None of the above

20 Write a search string in FTS to search for documents which have one word but n

- ○ Word1 - Word2
- ○ Word1 NOT Word2
- ○ Word1 WITHOUT Word2
- ○ None of the above

1 TEM is not able to retrieve documents from SMS. What will you check first?

- Check database text indexing service
- Check whether TEM is running
- Check whether AppServer is running
- Check whether SMS is running

2 One can create Web API that connects with OmniDocs:

- With an username and password
- With OmniDocs user session id
- Both options 1st & 2nd
- Web API does not have provision to connect with OmniDocs. An explicit connection needs to be established.

3 Which module is NOT configured as Landing Page in OmniDocs?

- Repository
- Trash
- OmniProcess
- Custom Tab

4 Which protocol is used to play Audio/Video formats in OmniDocs Web?

- RSMP
- SMTP
- RTMP
- AVTP

5 OmniDocs 10.x supports which of the following browsers?

- Internet Explorer 11 and Safari 10.1
- Mozila Firefox version 50 and above
- Chrome 60 and above
- All of the above

6 Where do we configure WOWZA streaming server details in OmniDocs?

- eworkstyle.ini
- IS.ini
- mediaConfiguration.ini
- ApplicationConfiguration.xml

7 In case of web-api integration, which file gets populated with newly made applica

- ○ Criteria.xml
- ○ ApplicationIntegration.xml
- ○ ComponentIntegration.xml
- ○ None of the above

8 What are the recommended scan settings to ensure good OCR results?

- ○ OCR is not dependent on settings
- ○ Document must be scanned at 100 DPI
- ○ Document must be scanned at 300 DPI -----c
- ○ Document must be scanned at 600 DPI

9 In latest version of OmniDocs, OmniProcess Draft folder is a look in folder for:

- ○ Maker (Upload)
- ○ Step1 (Checker1)
- ○ Step2 (Checker2)
- ○ Step3 (Checker3)

10 Write the search string you will use if you want to search only documents which

- ○ Word1 & Word2
- ○ Word1 OR Word2
- ○ Word1 AND Word2
- ○ None of the above

11 Which status code will return in case of successful execution of API?

- ○ 1
- ○ 0
- ○ 11
- ○ None of the above

12 For cabinet registration in Oracle database where do the cabinet and database e

- ○ oracle-ds.xml
- ○ server.xml and odcablist.ini
- ○ eworkstyle.ini
- ○ All of the above

13 Where do we configure supported Audio/Video formats in OmniDocs?

- ○ eworkstyle.ini

- ○ IS.ini
- ○ mediaConfiguration.ini
- ○ ApplicationConfiguration.xml

14 Which application type is used to configure audio/video in OmniDocs?

- ○ VOD
- ○ VOD-Edge
- ○ VOD HTTP Origin
- ○ audio/video Edge

15 Where does JNDI Port entry go?

- ○ NGOClientData.xml
- ○ IS.ini
- ○ Both the options 1 & 2
- ○ None of the above

16 Which call is used to obtain the Log generated for the objects like user, group, d

- ○ NGOGetLog
- ○ NGOGetObjectLog
- ○ **NGOFetchLog**
- ○ None

17 In latest version of OmniDocs, OmniProcess Submit folder is a look in folder for:

- ○ Maker (Upload)
- ○ Step1 (Checker1)
- ○ Step2 (Checker2)
- ○ Step3 (Checker3)

18 Which privilege allows the user to create or modify a data class?

- ○ Image Server Operations
- ○ Define/Modify Data Definitions
- ○ Create User/Group
- ○ Assign Rights

19 To view secured data in OmniDocs, which right is required?

- ○ Read and Modify
- ○ Modify Only
- ○ Read Only
- ○ Read and View Secured Data

20 What API would you use to check whether a user is Admin or not?

- **NGOIsAdmin**
- NGOCheckAdmin
- NGOIsUserAdmin
- NGOWhoIsUser

1 In latest version of OmniDocs, OmniProcess Draft folder is a look in folder for:

- Maker (Upload)
- Step1 (Checker1)
- Step2 (Checker2)
- Step3 (Checker3)

2 In case of web-api integration, which file gets populated with newly made applica

- **Criteria.xml**
- ApplicationIntegration.xml
- ComponentIntegration.xml
- None of the above

3 Which option is available under "View Search Result In" option of Web API?

- List View
- List Box
- List
- None of the above

4 In latest version of OmniDocs, OmniProcess Submit folder is a look in folder for:

- Maker (Upload)
- Step1 (Checker1)
- Step2 (Checker2)
- Step3 (Checker3)

5 NGOIsAdmin validates:

- Whether the logged in user is a member of the public Group
- Whether the logged in user is a member of the Everyone Group
- **Whether the logged in user is a member of the Supervisor Group**
- None of the above

6 Which flag is used to Enable Google Drive check-in/check-out option in OmniDocs

- GoogleDriveIntegration
- GoogleDocsIntegration
- GoogleIntegration

- ○ None of the above

7 How can you make connection with the cabinet using the OmniDocs Web API?

- ○ User name
- ○ User Session Index
- ○ External Login
- ○ All the above statements are correct

8 In OmniDocs, where does the entry for cabinet registration go?

- ○ admin.ini and odcablist.ini
- ○ eworkstyle.ini
- ○ Both of the above
- ○ None of the above

9 Where do we configure WOWZA streaming server details in OmniDocs?

- ○ eworkstyle.ini
- ○ IS.ini
- ○ mediaConfiguration.ini
- ○ ApplicationConfiguration.xml

10 In OmniDocs, which component listens on a TCP/IP Socket and communicates w

- ○ OSA
- ○ Wrapper
- ○ SMS
- ○ FTS

11 While encrypting secure data in OmniDocs, following algorithm can be used:

- ○ AES - 256 ~
- ○ AES - 512
- ○ PCI-256
- ○ PCI-512

12 TEM is not able to retrieve documents from SMS. What will you check first?

- ○ Check database text indexing service
- ○ Check whether TEM is running
- ○ Check whether AppServer is running
- ○ Check whether SMS is running

13 Which of the following languages are supported by OmniDocs 10.x?

- ○ English (US)

- ○ Arabic
- ○ Both of the above ───
- ○ None of the above

14 Where to define omnidocs_logs folder location?

- ○ server.xml
- ○ configuration..properties
- ○ odlogconfig.properties
- ○ log4j.properties

15 How can FTS work if it cannot use database inbuilt search engine?

- ○ There is no way FTS can work without database support
- ○ Write code to index text
- ○ Use a third party text engine like Lucene ────
- ○ None of the above

16 What API would you use to check whether a user is Admin or not?

- ○ **NGOIsAdmin**
- ○ NGOCheckAdmin
- ○ NGOIsUserAdmin
- ○ NGOWhoIsUser

16 What API would you use to check whether a user is Admin or not?

- ○ **NGOIsAdmin**
- ○ NGOCheckAdmin
- ○ NGOIsUserAdmin
- ○ NGOWhoIsUser

18 Write the search string you will use if you want to search only documents which

- ○ Word1 & Word2
- ○ Word1 OR Word2
- ○ Word1 AND Word2 ───
- ○ None of the above

19 Suppose User wants to make any Search as a Landing Page, What are the Prere

- ○ Search has rights for everyone
- ○ Even if Search has not rights for everyone, it can be set during making Search as Landing Page ───
- ○ No rights concept applied before making any Search as Landing Page
- ○ Both the options 1st & 2nd

20 How to apply Global Index on folder in OmniDocs?

- ○ Open a folder. On properties tab - Add Global Index Option is visible. Click on that. Add Global Index and click on save.

- ○ Global Index are not supported on folder

- ○ Open a folder. On properties tab Add Global Index Option is visible. Click on that. Add Global Index.

- ○ None of the above

1 To upgrade OmniProcess from previous version to latest version of OmniDocs, wh

- ○ While upgrading from OSA, OmniProcesses are also upgraded

- ○ OmniDocs Admin UI is used to upgrade OmniProcess

- ○ OmniProcesses from previous version cannot be upgraded. Need or create new

- ○ Need to copy ApplicationConfiguration.xml and Criteria.xml from previous version to latest version of OmniDocs

2 In OmniDocs, where does the entry for cabinet registration go?

- ○ admin.ini and odcablist.ini

- ○ eworkstyle.ini

- ○ Both of the above

- ○ None of the above

3 In OmniDocs Web API:
i. One create application and OmniDocs provides its name
ii. It is mandatory to provide the application name
iii. Application name is user defined
iv. Application name is mandatory and can be only system defined

- ○ (i) and (ii)

- ○ (ii) and (iii)

- ○ (i), (iii) and (iv)

- ○ (i), (ii) and (iv)

4 FTS isn't working and you get an error indexing service is not running. What will y

- ○ Check database text indexing service

- ○ Check whether TEM is running

- ○ Check whether AppServer is running

- ○ Check whether SMS is running

5 Where does the entry for cabinet association go?

- ○ Server.xml

- ○ odcablist.ini ——
- ○ admin.ini
- ○ eworkstyle.ini

6 To enable Seclore feature in OmniDocs, Policy Server Details are kept in:

- ○ eworkstyle.ini
- ○ hotFolderConfig.properties
- ○ SecloreConfiguration.xml ——
- ○ StoredCredential

7 In latest version of OmniDocs, OmniProcess Draft folder is a look in folder for:

- ○ Maker (Upload)
- ○ Step1 (Checker1)
- ○ Step2 (Checker2)
- ○ Step3 (Checker3)

8 Where do we configure supported Audio/Video formats in OmniDocs?

- ○ eworkstyle.ini
- ○ IS.ini
- ○ mediaConfiguration.ini
- ○ ApplicationConfiguration.xml

9 In latest version of OmniDocs, OmniProcess Root folder is a parent folder for:

- ○ Draft Folder
- ○ Submit folder
- ○ Both of the above
- ○ None of the above

10 Which flag need to be enabled to enable integration with Seclore Policy Feature

- ○ EnableSeclore
- ○ ShowSecureLink
- ○ EnableSecureLink
- ○ ShowSecloreLink

. 11 In OmniDocs, a Volume can have

- ○ Only One Volblock
- ○ Only Two Volblock
- ○ Many Volblocks
- ○ None of the above

12 To enable Seclore feature in OmniDocs, which of following is NOT required?

- ○ OmniDocs Server
- ○ LDAP Server
- ○ Mail Server ---- c
- ○ Policy Server

13 In case of web-api integration, which file gets populated with newly made applic

- ○ **Criteria.xml**
- ○ ApplicationIntegration.xml
- ○ ComponentIntegration.xml
- ○ None of the above

14 How can FTS work if it cannot use database inbuilt search engine?

- ○ There is no way FTS can work without database support
- ○ Write code to index text
- ○ Use a third party text engine like Lucene
- ○ None of the above

15 Which of the following integration type is not available in OmniDocs Web API?

- ○ Document View
- ○ Folder View
- ○ Document List
- ○ Folder List

16 To enable Easy Search in OmniDocs, information to enable it is kept in:

- ○ ApplicationConfiguration.xml
- ○ admin.ini
- ○ SecloreConfiguration.xml
- ○ eworkstyle.ini

17 How many default groups are created in OmniDocs during installation?

- ○ 2
- ○ 3
- ○ 4
- ○ 5

18 What are the recommended scan settings to ensure good OCR results?

- ○ OCR is not dependent on settings
- ○ Document must be scanned at 100 DPI
- ○ Document must be scanned at 300 DPI

- ○ Document must be scanned at 600 DPI

19 NGOGetFolderIdForName API is used:

- ○ To fetch Folder name
- ○ To fetch Folder Index
- ○ To fetch Folder properties
- ○ None of the above

20 For cabinet registration in MSSQL SERVER database where do the cabinet and d

- ○ mssql-ds.xml
- ○ server.xml and odcablist.ini
- ○ eworkstyle.ini
- ○ All of the above ⌒

1 How does text indexing affect database performance?

- ○ In no way
- ○ Database queries get slower ⌒
- ○ Database size increases
- ○ None of the above

2 Which module is NOT configured as Landing Page in OmniDocs?

- ○ Repository
- ○ Trash ⌒
- ○ OmniProcess
- ○ Custom Tab

3 Which of the following integration type is not available in OmniDocs Web API?

- ○ Document View
- ○ Folder View
- ○ Document List
- ○ Folder List

4 In OmniDocs, what will be the impact of stopping the SMS service?

- ○ Image retrieval will be stopped
- ○ Image addition will be stopped
- ○ Both of the above
- ○ None of the above

5 From which API call one can get Session ID?

- ○ NGOGetSessionID
- ○ NGOGetUserDBId
- ○ NGOConnectCabinet
- ○ None of the above

6 For a single Image Server in OmniDocs:

- ○ Only one SMS can be deployed
- ○ Multiple SMS can be deployed
- ○ Two SMS can be deployed
- ○ None of the above

7 Which flag need to be enabled to enable performance optimization feature in Omr

- ○ OptimizePerformance
- ○ Performance
- ○ EnablePerformance
- ○ None of the above

8 Which flag is used to Enable Google Drive check-in/check-out option in OmniDocs

- ○ GoogleDriveIntegration
- ○ GoogleDocsIntegration
- ○ GoogleIntegration
- ○ None of the above

9 In latest version of OmniDocs, if instrument(document or folder) is saved but not

- ○ Submit folder
- ○ Root folder
- ○ Draft folder ———
- ○ None of the above

10 What configuration tags are required to enable Forward Feature in OmniDocs?

- ○ MailServerIpAddress, AdminMailId, SSLenabled, UserName, Password, MailServerPort
- ○ MailServerIpAddress, AdminMailId, SSLenabled
- ○ AdminMailId,SSLenabled, UserName, Password, MailServerPort
- ○ SSLenabled,UserName, Password, MailServerPort

11 In latest version of OmniDocs, while configuring OmniProcess action destination

- ○ Browse from OmniDocs

- ○ Newly created inside Root folder
- ○ Both of the above
- ○ None of the above

12 To upgrade OmniProcess from previous version to latest version of OmniDocs, w

- ○ While upgrading from OSA, OmniProcesses are also upgraded ⎯⎯⎯
- ○ OmniDocs Admin UI is used to upgrade OmniProcess
- ○ OmniProcesses from previous version cannot be upgraded. Need or create new
- ○ Need to copy ApplicationConfiguration.xml and Criteria.xml from previous
version to latest version of OmniDocs

13 FTS isn't working and you get an error indexing service is not running. What will

- ○ Check database text indexing service
- ○ Check whether TEM is running
- ○ Check whether AppServer is running
- ○ Check whether SMS is running

14 NGOIsAdmin validates:

- ○ Whether the logged in user is a member of the public Group
- ○ Whether the logged in user is a member of the Everyone Group
- ○ Whether the logged in user is a member of the Supervisor Group
- ○ None of the above

15 In case of web-api integration, which file gets populated with newly made applic

- ○ Criteria.xml
- ○ ApplicationIntegration.xml
- ○ ComponentIntegration.xml
- ○ None of the above

16 The feature to perform the task of data highlighting is called _____

- ○ Document definition
- ○ Template definition
- ○ Document image
- ○ Zone definition

17 Where to define omnidocs_logs folder location?

- ○ server.xml
- ○ configuration..properties
- ○ odlogconfig.properties
- ○ log4j.properties

18 What are various field constraint supported on data class?

- ○ Unique
- ○ Mandatory
- ○ All of the above
- ○ None of the above

19 Write a search string in FTS to search for documents which have one word but

- ○ Word1 - Word2
- ○ Word1 NOT Word2
- ○ Word1 WITHOUT Word2
- ○ None of the above

20 Which component is used for the synchronization of a domain configured on any

- ○ OmniDocs Authentication Manager
- ○ Thumbnail Manager
- ○ Alarm Mailer
- ○ Remote Image Server

1 To upgrade Search Configurations from previous version to latest version of Omni

- ○ While upgrading from OSA, Search Configurations are also upgraded.
- ○ OmniDocs Admin UI is used to upgrade Search Configurations
- ○ Search Configurations from previous version cannot be upgraded. Need or create new
- ○ Need to copy SearchConfiguration.xml from previous version to latest version of OmniDocs

2 For a single Image Server in OmniDocs:

- ○ Only one SMS can be deployed
- ○ Multiple SMS can be deployed
- ○ Two SMS can be deployed
- ○ None of the above

3 Write a search string in FTS to search for documents which have one word but no

- ○ Word1 - Word2
- ○ Word1 NOT Word2
- ○ Word1 WITHOUT Word2
- ○ None of the above

4 What API would you use to check whether a user is Admin or not?

- ○ NGOIsAdmin
- ○ NGOCheckAdmin
- ○ NGOIsUserAdmin
- ○ NGOWhoIsUser

5 In OmniDocs Web API:
i. One create application and OmniDocs provides its name
ii. It is mandatory to provide the application name
iii. Application name is user defined
iv. Application name is mandatory and can be only system defined

- ○ (i) and (ii)
- ○ (ii) and (iii)
- ○ (i), (iii) and (iv)
- ○ (i), (ii) and (iv)

6 Where to define omnidocs_logs folder location?

- ○ server.xml
- ○ configuration..properties
- ○ odlogconfig.properties
- ○ log4j.properties

7 In OmniDocs, a Volume can have

- ○ Only One Volblock
- ○ Only Two Volblock
- ○ Many Volblocks
